

SURFACE CABLE TRUNKING

Available in: Pre galvanised, stainless steel and powder coated.
Other ranges available, please contact us for our full range.

Turnbuckle Lid Fixing

TRUNKING

Armorduct offer a comprehensive range of standard returned edge surface trunking, single or multi compartment.

Both the lid and the body are supplied in 3 metre lengths complete with coupler and all necessary fixing screws.

All the trunking accessories are supplied with all necessary fixing screws.

All couplers are supplied with captive threaded bushes, and all accessories are generally of weldless manufacture fitted with integral couplers.

As well as our standard turnbuckle we offer screw fix, security screw fix and lockable lid fixings.

A complete range of surface trunking is available in 2, 3 or 4 compartment variations.

SPECIFICATION OF STANDARD SURFACE TRUNKING

Trunking system meets the requirements of EN 50085-1:2005 and EN 50085-2-1:2006

Mild steel pre galvanised manufactured from steel complying with BS EN 10346:2009

Continuously hot-dip coated steel flat products

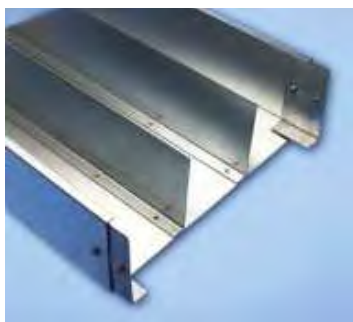

ALTERNATIVE FINISHES

Trunking can be supplied in epoxy powder coat finish in a BS or RAL number colour.

Trunking can be manufactured from other materials including, stainless steel 304-316, zinc electro coated steel, aluminium and post galvanised.

Contact us for more information. Alternative lengths and sizes can be made to order.

Please Note Use the prefix **S** to replace **A** for Stainless Trunking and Accessories

A technical specification is available in PDF format on request.
