Central Hanging Plate

Description

Central mounting bracket, in M6, M8 and M10, for Rejiband® wire mesh tray. It allows the introduction of cables into the tray from the side and saves installation time when mounting it with a single rod and the respective nuts. Available in various finishes.

Advantages

The ceiling mount allows the introduction of cables into the tray from the side, saves in installation time and cost of material.

Thanks to its shape it adapts easily for anchoring to the rods.

Suitable for tray widths from 100 to 200 mm inclusive.

Available in various diameters: M6, M8 and M10.

Available in various finishes: Electrozinc, bichromate, hot dip galvanized, organic mineral BLACK C8 and passivated stainless steel AISI 316.

Applications

Suitable for the ceiling mounting of Rejiband in widths from 100 to 200 mm by means of a single rod in indoor installations in a dry atmosphere with no contaminants, exterior, industrial, marine, rural or aggressive interior installations.
