Cable Management Accessories

Conduit Gland Bracket (Ref: 67010040)

Description

Conduit outlet is a Rejiband® accessory used to protect the wiring output to rigid or flexible conduits. It allows connection of fittings in types PG13, PG16, PG21, M20 and M25. It is installed using the quick-fit Click system without the need of screws and can be placed in the flange or in the base of the tray. Suitable for all sizes of Rejiband® trays and available in steel, finished in Electrogalvanised EG.

Advantages

Fixing by quick mount click system.

Quick installation without the need for screws or fastenings.

Protects the cable outlet.

Use with Pemsa conduit + RGP connector.

It accepts fittings in sizes of: PG13, PG16, PG21, M20 and M25.

Applications

Allows the connection of fittings or glands and allows the output of electrical or telecommunications wiring from rigid or flexible conduits.
